GOVERNMENT OF INDIA
DRINKING WATER AND SANITATION
LOK SABHA

UNSTARRED QUESTION NO:1928
ANSWERED ON:28.07.2016
Drinking Water and Sanitation Schemes
Laguri Smt. Sakuntala

Will the Minister of DRINKING WATER AND SANITATION be pleased to state:

(a) the amount allocated for drinking water and sanitation schemes and the amount utilized during each of the last three years and the current year, State-wise; and
(b) whether the implementation of the rural drinking water supply and sanitation schemes in respect of Odisha is not satisfactory and if so, the steps proposed to be taken by the Government thereon?

Answer

MINISTER OF STATE FOR DRINKING WATER AND SANITATION
(SHRI RAMESH CHANDAPPA JIGAJINAGI)
(a) The State wise allocation of funds under National Rural Drinking Water Programme (NRDWP) and the amount utilized for last three years and the current year is at Annexure-I.
Since Swachh Bharat Mission (Gramin) is demand driven scheme, hence no State-wise allocation made. However, State / UT-wise, Central share released and utilised during last 3 years and current year under Nirmal Bharat Abhiyan (NBA) / Swachh Bharat Mission (Gramin) is at Annexure-II.
(b) Drinking Water is a State subject. This Ministry provides technical and financial assistance to the States in their efforts to provide every rural household, a minimum of 40 litres per capita per day (LPCD) of safe drinking water on sustainable basis under the Centrally Sponsored National Rural Drinking Water Programme (NRDWP). Every year between February and April, Annual Action Plan (AAP) meetings are held with the Departments of State Governments dealing with rural drinking water supply, wherein the progress achieved under different components of NRDWP are reviewed and targets for the next financial year are fixed. The physical and financial progress of NRDWP is also reviewed in National / Regional / State level review meetings, conferences, video-conferences and field visits of officers of the Ministry to States.As per information reported by the State on Integrated Management Information System (IMIS) of this Ministry, the targets and achievements of State of Odisha during the last three years and current year is as below.
Year Coverage of Rural Habitations in Odisha
Partially Covered Quality Affected

Target Achievement Target Achievement
2013-14 10873 16865 2627 1582
2014-15 11300 19154 2200 1367
2015-16 7851 11810 769 525
2016-17
(as on 25.07.2016 8500 392 800 9

From the above it is seen that the State has performed well in the coverage of partially covered habitations but lagged behind in the coverage of quality affected habitations.
Under SBM (G), number of Individual household latrine (IHHLs) constructed during last 3 years and current year in odisha is as under:-

Year No. of Individual household latrines constructed
2013-14 33,759
2014-15 1,30,925
2015-16 13,29,832
2016-17 (up to 25.7.2016) 2,63,957

The progress during the year 2013-14 and 2014-15 was slow. However, during 2015-16, good progress has been registered. State of Odisha has adopted community processes and collective behavior change approach.
